

MS in Civil Engineering: Structures Emphasis
Course Offerings (updated June 2020)

Course No	Course Title	Credit Hours	Semester Offered
CEEn-MeEn 507	Linear Finite Element Methods	3	F
CEEn 508	Structural Vibrations	3	F
CEEn 521	Advanced Structural Steel Design	3	F
CEEn 525	Bridge Structures	3	F
CEEn 528	Masonry Design	3	W
CEEn 529	Structural Wood Design	3	F
CEEn-MeEn 607	Nonlinear Finite Element Methods	3	W

For further information on the Structures Engineering emphasis within the department contact:

Concrete, Masonry & Timber
Steel and Timber Analysis
Structural Analysis
& Finite Element Methods
